

Welcome to Sun Life Dental!

We're working hard to get your new Sun Life Dental plan ready. In the meantime, we wanted to share what you'll need to start using your new dental coverage. These simple steps will help put you on the path to a healthy, happy mouth!

Step 1: Finding your dentist or another participating provider in the Sun Life Dental Network®.

Visit our find-a-dentist tool to determine if your current dentist participates in the Sun Life Dental Network, or to find a participating provider near you. Simply type www.sunlife.com/sunlifedentalnetwork into your browser bar to begin searching with your criteria. Remember, your plan allows you to see any dentist you choose, in or out of the network.

← → ↻ www.sunlife.com/sunlifedentalnetwork ☆

Tip!
Seeing a dentist that participates in the Sun Life Dental Network® may stretch your dental benefit dollars further!

Step 2: Using your plan for the first time.

Your dental ID card will be ready to download soon, but everything you need to schedule a visit with your dentist is shown below. Using your mobile device, take a quick picture of the information below. Be prepared to provide this information and your social security number to your dentist when you schedule an appointment, or at your first visit.

Provide this info and your Social Security Number at your next dental appointment.

Information for your dentist:

SUN LIFE DENTAL

Group name:

Policy #:

Effective date:

Sun Life Dental Network®
